

# How to Find a Doctor

You get the most out of your medical plan by using an in-network provider.

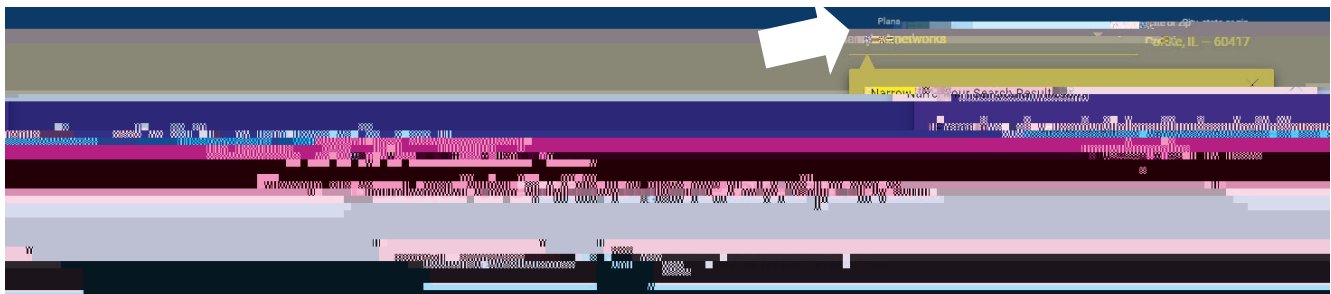

To see if your provider participates in the Blue Cross Blue Shield network—or to find one who does—simply log on to <https://www.bcbsil.com/find-care/providers-in-your-network/find-a-doctor-or-hospital>

Under “Find a Doctor or Hospital” click on “Search as a Guest”.

On the next page under the “All plans/networks” drop down, select the applicable network.

- x PPO → Participating Provider Organization [PPO]
- x BA HMO → Blue Advantage HMO [ADV]
- x HMO IL → HMO Illinois [HMO]

Fill in criteria you have, doctor's name, zip code of area you want to find a doctor in, etc. Then pick one of the providers listed.

## How to Find a Doctor, Continued

If you are enrolling in one of the two HMO plan options you are required to choose a Primary Care Physician (PCP) and Medical Group (IPA) who participates in the selected HMO network and who is available to accept you and/or your family members.

You will need the 9-digit PCP#:

**Provider Highlights**

The screenshot shows a provider profile for Daniel F. Ross, MD. The profile includes a star rating of 4.5, a location of 3024 W. Armitage Ave, Chicago, IL 60647, and a phone number of (773) 331-7777. A green checkmark indicates that the provider is accepting new patients.

And the 3-digit IPA#:

Once you select one note the IPA# (Group name and the PCP# and doctor name to fill in the enrollment
